

Template for pencil holder

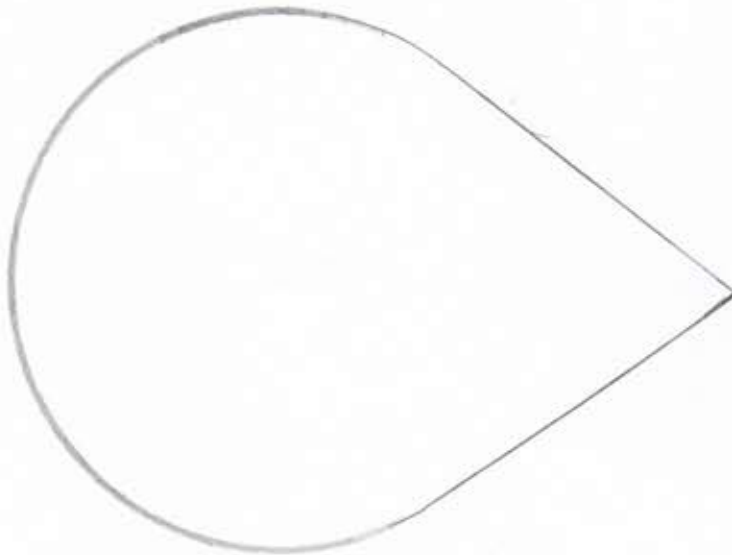

The bottom part has a radius measuring 3.5 cm and from the middle of the circle to the tip, it measures 6 cm.

(i. e., it measures 7 x 9.5 cm at its widest and longest points)

The siding is a rectangular square measuring 27.4 cm x 10 cm.

You need to make 4 x bottom parts and 1 x siding

NB! If you choose thick leather, the siding must be slightly longer.

Have fun!
