

Potholders in leather

The products you need:

- Thick leather
- Scissors
- Hammer
- Grommets
- Cardboard for template
- Sewing machine

Step 1

Use the cardboard as a template for your potholders. Cut any shape and size, you want.

Step 2

Cut out your leather following the template.

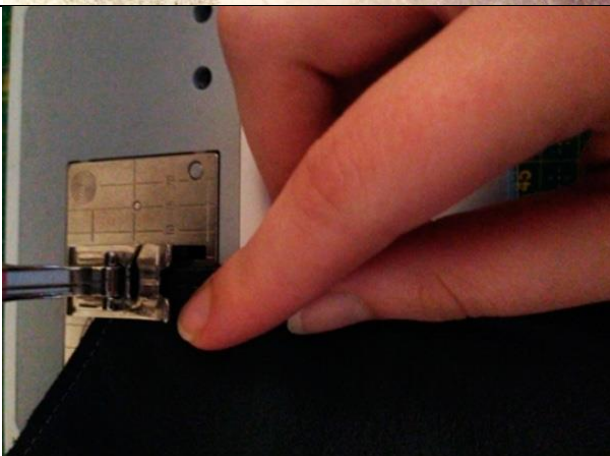

Step 3

After this, place the leather piece, you just cut out, on top of another piece of leather. The wrong sides should be facing each other. Cut the second piece into size, following the cut-out piece as a template.

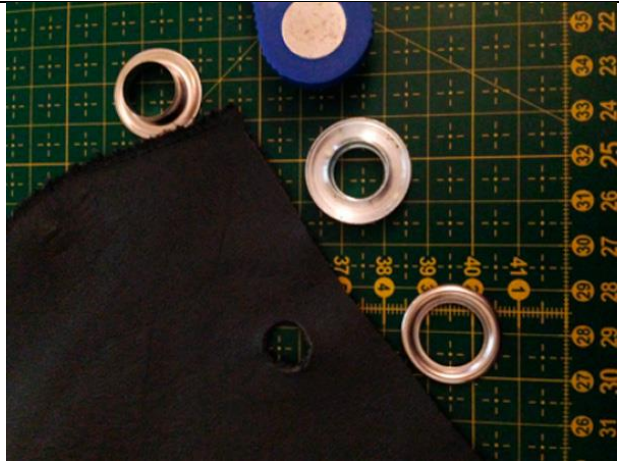

Step 4

Sew the two pieces of leather together by using your sewing machine.

Step 5

Cut out a hole in the leather to make room for the grommets. After this, follow the directions on the back of the packaging.

**Step 6**

Use a hammer to assemble the grommets.
