Paper towel holder with leather strap

The products you need:

- Leather strap, 30 mm wide
- Wooden plate, 150 mm
- Sam Browne Button
- Nail
- Glue
- Punch tong
- Hammer
- Ruler
- Drilling machine
- Round stick
- Drill
- Saw
- Sandpaper

Step 1 Drill a hole in the wooden plate.	
Step 2 Use a saw to cut the round stick into the desired length. Cut off the end at an angle.	
Step 3 Hammer two nails into the leather piece and the wooden plate.	
Step 4 Apply glue to the hole and the stick and leave it to get slightly tacky.	

Step 5 Hammer the round stick into the wooden plate.	
Step 6 Use the sandpaper to smooth out the edges.	
Step 7 Attach a fresh roll of paper towel and measure out, where the leather strap will be cut.	
Step 8 Cut the leather into size and cut off its corners.	
Step 9 Glue on the Sam Browne button.	

Step 10

Punch two holes with your rotary leather punch, so that it gets possible to tighten in the leather strap, once the paper towel gets smaller.
